

OPEN SHOW HEIFERS

Juliette and Annaliese have been working diligently for many years to develop a herd that will excel in both the showing and the pasture. These are just some of the past success the girls have achieved. Both girls are very involved in the farm and day to day work and know what it takes for a show heifer to become a productive cow. This is evidenced by the success they have had with cow/calf pairs and bred and owned bulls. Many of these show heifers we are offering are daughters of the heifers in the above pictures.

Juliette has made the decision to focus on school and not show this summer, this allows us to offer these

heifers to the next generation. All three daughters of her popular NJAS class winning heifer, Mead Pride S953, "Lacy" are in this offering. Lacy is a direct daughter of her first show heifer, Lucy. She is also selling a daughter of Mead Juana P561, "Emmy" a granddaughter of the immortal Juana H168. Juliette is very proud of her accomplishments and anxious to share that success with the next generation.

Annaliese has worked very hard on this group of heifers. Every heifer is broke to lead and ready to show thanks to her hard work and diligence. I am very very proud of the young woman that she has become. Her popular Intermediate Champion heifer,

Marshmallow, has a daughter in this sale and looks to have the same hip and style her mother did.

Both girls are very proud of what they have accomplished and look forward to the future success these heifers and their new owners will achieve. You can buy these heifers with confidence that they come from some of the top maternal pedigrees and have the style and grace to find success in the showing and the pasture. Juliette and Annaliese are retaining a right to 1 flush at the buyer's convenience and seller's expense on Lots 367-373. Juliette is retaining 1/2 embryo interest on Lot 366.

- "We are starting the show heifer division off with three daughters of ""Lacy"" out of popular show sire 24 Karat. Lacy is Juliette's popular NJAS class winning heifer that has transitioned into a great momma cow. Her nursing ratio on her first two calves has been phenomenal. These three heifers all have great feet and leg structure, as did their mother.
- Lot 366 is a deep bodied heifer that reminds me of her mother. Gentle enough for any showman and strides easily. Juliette is retaining 1/2 embryo interest.
- Lot 367 is a fancy October prospect that has that wow factor. Impeccable lines with hair to spare!
- Lot 368 is the greenest of the three. She has a beautiful neckline and great feet structure. She has come on strong since weaning and the future is bright."

- Lot 369 is STOUT! She has bone to spare and a killer hip, just like her momma did. She is gentle and longs for attention, would be perfect for any level of showman. Her future in the pasture will be as bright as her show career, as she descends from the immortal Mead Juana H168, dam of Final Choice.

• Mead Eline Marshall V3054 is a natural calf out of a mature Grand Torino dam with an average nursing ratio of 102. A dual purpose heifer with loads of performance. The 2 daughters of her dam in production have an average nursing ratio of 101. Buy this heifer for a junior project and pay the bills with her as a production cow. Suited for an advanced showman.

• October show prospect with a sleek neckline beautiful lines. A little greener when we started but is really starting to shine. We have kept our fall show heifers a little green when they are young to allow them to shine as senior yearlings as well. Dam is a full sister to "Marshmallow", Annaliese's popular intermediate champion heifer.

• Late September show heifer that is a replica of her mother, "Marshmallow" and her grandmother "Tilly". Killer hip and STOUT! Powerful Primo daughter with a great disposition. Her dam continued to blossom through the summer, and I expect the same from Lot 372. Easy keeping type of female. This heifer is hard to let go!

• This heifer intrigues me. She is a granddaughter of WCC Frontier Gal 39, dam of many many champions. This October show prospect has the body and style to compete and the pedigree to match. I see her as a future donor for any herd wishing to improve their showstring. Suited for an advanced showman.
